**Thank you for your interest in either starting a homebased online business for the first time or adding one with our famous successful worldwide team. I/we do exceptionally well with this health, wellness and beauty hybrid network/affiliate marketing company.**

**I have many thousands worldwide in my downline and me and my partner, who has now earned over 75 million for his family from this company, enjoy showing others how they can be successful also.**

**There are now two very lucrative ways to earn with this two decade old direct sales leading company.**

1. With the hybrid network marketing/affiliate marketing earning program **you gain 20% commissions on all 1st orders**, plus **you gain bonuses and commissions on everyone under you** as you help and build your sales teams, as an Associate you are also promoting the income opportunity.

2. On the **straight affiliate marketing program**, you are a **Brand Partner** and get links in place of a website and you share those links, and **you gain 12 to 35% commissions on all orders including reorders**, but there are no teams built underneath you and no commissions flowing upward.

With the hybrid program everyone comes in as a customer, so there is a nominal cost as well as the normal network marketing requirements to earn commissions and bonuses in addition to the 20% of 1st orders which is exempt from any of those requirements (hence hybrid). So **you get 20% commissions on new customer orders as if it was just affiliate**, then **participate (if you wish) in the lucrative network marketing compensation program** where you can **earn on everyone's orders in your entire organization**. People are placed under you in your organization regardless of whether you participate and are always there for anytime in the future should you decide at a later date.

**The Brand Partnership has no costs at all and no requirements** at this time. **You earn on your customers initial and reorders**, but don't: promote the income opportunity, get a website (individual product links instead) or have revenue flowing up to you from other people's customers.

Both programs get the **support of my/our #1 team** including myself and my sponsor, the all-time income earner of this 21 year old company, **marketing and training**
